

Cassette  
Airconditioning Systems

BLUE STAR

The AC  
with the looks  
to match your  
decor.

## Blue Star,

*in its continuing effort to provide innovative cooling solutions for your business, brings you the Cassette Airconditioning Systems. They not only look contemporary, but are also extremely quiet and installation friendly.*

*They blend beautifully with stylish interiors by virtue of their excellent looks, fit and finish. Their compactness and ability to distribute cool air uniformly in four directions without ducting makes them an ideal choice where it is not practical (due to structural constraints such as low cross beams).*

*These Cassette Airconditioning Systems are also the preferred choice for commercial spaces with low ceilings. Their world class product design using advanced Turbo fans makes them whisper quiet.*

## Features

### **Integrated Drain Pump:**

*The built-in drain pump ensures that condensed water is drained effectively without damaging the false ceiling.*

### **Air Sweep:**

*The air sweep function moves the flap up and down in the air outlet, directing air in a "sweeping" motion around the room and providing comfort in every corner.*

### **Remote Control:**

*These units come with a user-friendly wireless remote, which have built-in microprocessors for ease of operation and at-a-glance confirmation of display settings.*

**Fuzzy Logic Control:**

The fuzzy logic control ensures that the unit operates at the most suitable capacity according to indoor and outdoor temperature conditions.

**Aut Flap Control:**

When the unit is first turned on, the flap position is automatically adjusted in accordance with the cooling operation. This initial flap position can be preset within a certain range for cooling.

**On/Off Timer:**

The wireless remote controller allows you to set a wide variety of time-based operations. Such functions include automatic ON/OFF with timer settings, same time ON/OFF every day, ON timer, OFF timer and combination timer.

**Auto Fan Control:**

Convenient microprocessor control automatically adjusts fan speeds to high or low, corresponding to room temperature and maintaining comfortable airflow throughout the room.

**Dry Mode:**

In case of sultry or high humid conditions, the air conditioner automatically works on Dry Mode to dehumidify the air and removes extra moisture from the room.

# Cassette Airconditioners (New Range) B Series
