

# Ice Machines

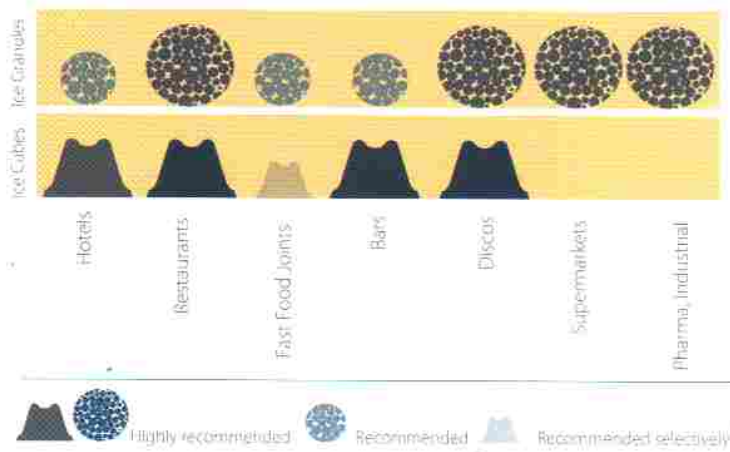

Fresh water.  
Frozen in 5 shapes.

Today, ice plays various roles. A style element for cocktail drinks. A cool bedding for delicacies. A preserver of life saving drugs. And the list is as long as it is diverse. So no matter what, ice is capable of transforming itself to meet every need. And to meet your specific requirements in the best possible way, you can always rely on the Expert. Blue Star.

## Why Blue Star?

Blue Star, India's leading airconditioning company, collaborates with NTF (Italy), the world's leading ice machine manufacturer, to bring you sophisticated ice making machines that turn water into ice in five exotic shapes. Every shape brought to life through the innovative spraying technology. These machines are hygienic, energy efficient, durable and easy to maintain. And they come in capacities ranging from 15 kg to 2200 kg to meet your every need.

## Advantages of Blue Star - NTF Ice Machines

Blue Star-NTF ice machines offer unmatched features that ensure longevity, high levels of hygiene, low cost of ownership and ease of use and maintenance.

### Power saving components and energy saving design

Fully insulated ice bin preserves ice for a longer duration, ensuring low power consumption.

### Self-standing

Fully-foamed, self-standing housing provides for excellent insulation and long-term stability.

### Space saver

Compact designs ensure an easy fit into the smallest of spaces.

### Totally safe

Designed with food-safe materials that provide for sanitised ice handling.

### Sprayers

Equipped with sprayers to limit lime deposit, reducing the need for frequent cleaning.

### Perfect shapes

Advanced ice forming process control ensures perfect shapes, under any environmental condition.

### Auto stop and start

Automatic stop and start when there's no power or water supply.

### Water content control

System controls ideal ice and water ratio to suit the ice type.

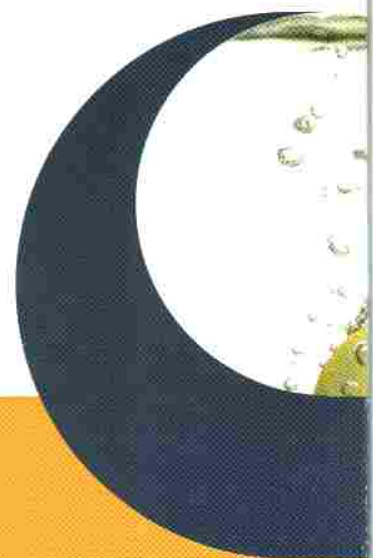

### Low noise

Designed for noiseless operation.

### Stainless steel body

Stainless steel body assures long life and durability.

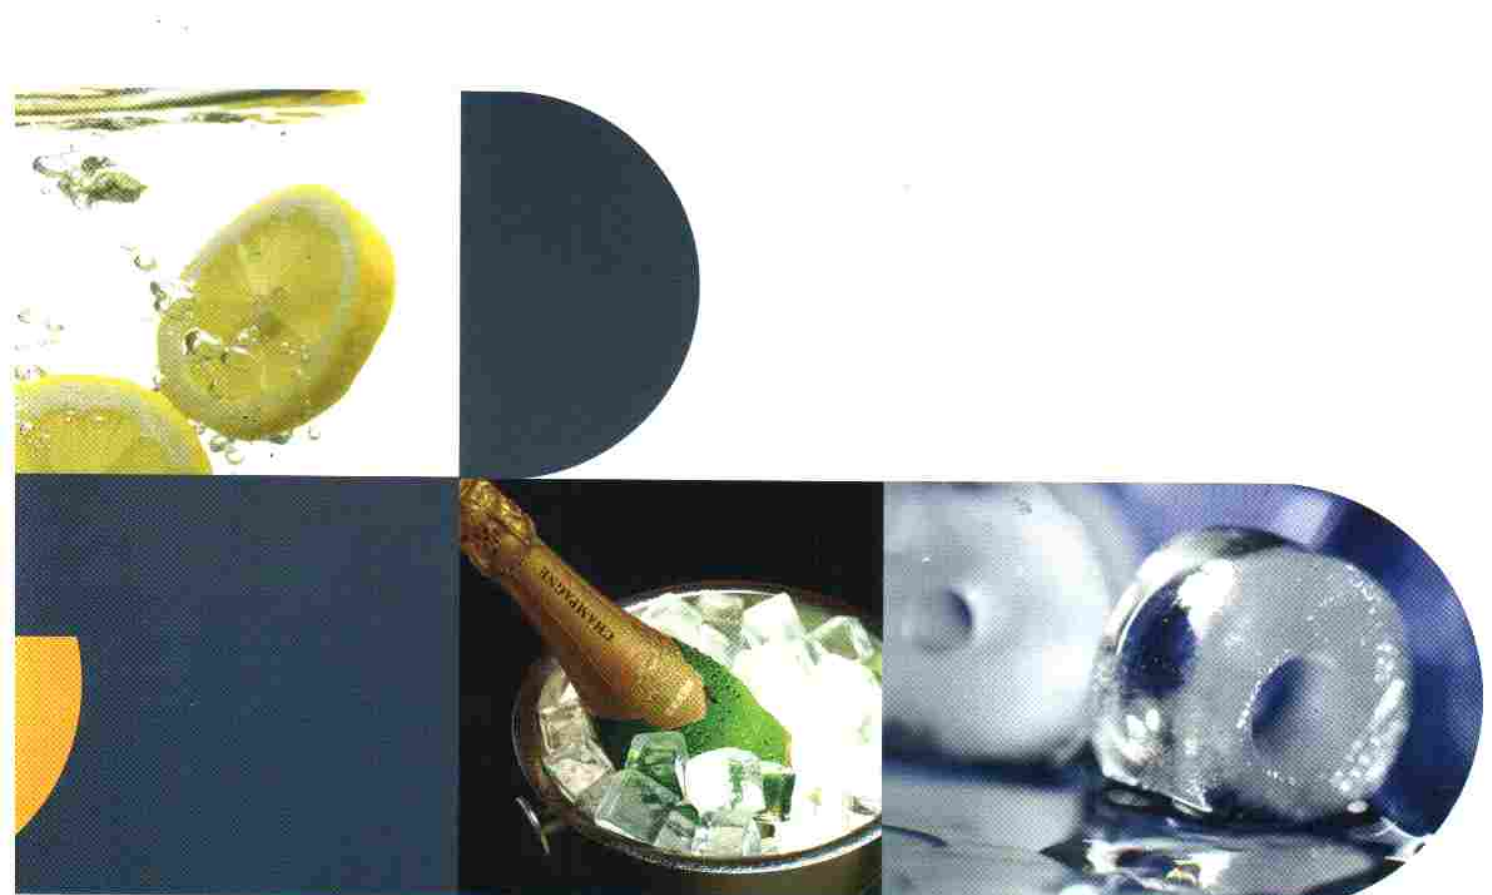

## Ice Machines for Every Need

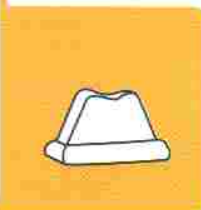

**Diced Ice Maker** produces cut cone shaped ice cubes with slightly dented surface. Diced Ice is crystalline and compact with higher staying power. It's a refreshing cool boost for all kinds of drinks. This machine is capable of dealing with the hardest of waters and provides timer gauging of the entire production cycle.

	Units	SL 28	SL 35	SL 60	SL 90	SL 180	SL 260	SL 350	CM 650
